

# Race Bearings: Hard vs. Soft

The powerful and winning difference!

*Ron Sledge, King performance and technical manager, explains all you should know about the effect of bearing hardness levels on race engine performance.*

*During the seminar, King bi-metal (HP) and tri-metal (XP) bearing materials will be discussed and compared.*

*Topics include: how to maximize performance by choosing the right bearing material, how to avoid engine failure, and more.*

*King Racing's XP bearing features will be reviewed throughout the session. Don't miss it!*

**Space is limited, register today!**

**Date:** Friday, December 11, 3:30 pm - 4:30 pm

**Location:** Indiana Convention Center, Room 234

**The seminar is free to attend, RSVP:**
